

# Volunteers needed for a study at the National Institutes of Health

*Doctors at the National Institutes of Health (NIH) Clinical Center are seeking patients with nephrotic syndrome (excess protein in the urine) to take part in an adrenal gland function study. This study is being done to learn more about adrenal gland function in people with this condition. There is no cost to you for study-related tests or procedures.*

***If you have nephrotic syndrome, please consider participating in study # 05-CH-0013.***

**The study involves:**

One 3 hour visit for testing and bloodwork.

**Location:**

The NIH Clinical Center, America's research hospital, is located on the Metro Red line in Bethesda, Maryland.

**Compensation:**

You will be compensated if eligible to participate.

**For more information, please call:  
1-800-411-1222 (TTY: 1-866-411-1010)**

**Se habla español**
